THE BMW i3 AND i3s 120Ah.

BMW i stands for visionary vehicles and mobility services, inspiring design and an understanding of premium that is strongly defined by sustainability. The BMW i3 offers an innovative experience that combines impressive agility and exhilaration with the fascination of relaxing, near silent driving. Designed with sustainability, exceptional looks, driving dynamics and battery performance in mind.

More agile and dynamic, the BMW i3s offers a sportiness and road presence never seen before. Featuring refined aerodynamics, a lower sport suspension set up and more defined handling, the BMW i3s offers an enhanced and unequalled experience.

To keep you connected with the outside world and enhance the functionality of your Ultimate Driving Machine, BMW Professional Navigation with ID6 software, BMW Online Services and Real Time Traffic Information are now standard. In addition, Apple CarPlay® is now available as an option for the first time in a BMW i vehicle.

BMW EFFICIENT DYNAMICS.

EfficientDynamics is BMW's award-winning programme of technologies designed to reduce CO₂ emissions and improve fuel economy, without compromising on performance or driving dynamics. These technologies are standard on every BMW and could lower your fuel and tax costs, as well as ensure a lower benefit-in-kind tax rating for company car drivers. You can find out more about the benefits of BMW EfficientDynamics, as well as compare your own vehicle against the BMW i3 at www.bmw.co.uk/EfficientDynamics

LESS EMISSIONS. MORE DRIVING PLEASURE.

EXTERIOR.

The BMW i3 showcases an exciting and sustainable design, while the vehicle remains unmistakably BMW. The eye-catching U-shaped feature line in matt Black on the bumper and standard full LED headlights give the front of the vehicle a distinctively expressive look.

With the BMW i3s the sporty exterior design elements are guaranteed to turn heads. Particularly striking features include the unique i3s front and rear bumper design, 20" i3s alloy wheels with wheel arch extensions and lowered Sport suspension which all result in a more athletic design.

INTERIOR.

The interior of the BMW i3 demonstrates a fresh approach to vehicle design. Depending on your choice of interior, the use of natural fibres, climate active wool and structured textiles, create an innovative interior experience. The open-pore eucalyptus wood makes a strong contribution here too, bringing the natural approach to life in an entirely new way. The aesthetic contrast in materials combines to create an exclusive and extremely attractive interior, whichever interior world is chosen.

The BMW i3 also keeps you constantly up-to-date from right inside the vehicle. From dynamic range calculation to current charge status or calculating the most efficient route, the BMW i3 provides a range of information to ensure you are always one step ahead. The wide range of BMW ConnectedDrive Services allow you to become connected to the world outside your vehicle by keeping up-to-date with friends on Twitter, or browsing BMW Online to read the latest news and weather forecast.

STANDARD EQUIPMENT HIGHLIGHTS.

The BMW i3 120Ah

- 19" BMW i light alloy Turbine style 429 wheels, Bicolour
- 2.4kW AC charging
- A-pillar and roof moulding in High-gloss Black and Chrome optic highlight
- Aragats Grey / Black Neutronic cloth upholstery
- Bluetooth hands-free facility with USB audio interface
- BMW ConnectedDrive Services
 - Comprises:
 - BMW Apps interface
 - BMW Emergency Call
 - BMW Online Services
 - BMW TeleServices
 - Connected eDrive Services
 - Real Time Traffic Information (RTTI)
- BMW eDrive motor
- BMW Professional radio without CD player
- Carbon fibre reinforced plastic (CFRP) body structure
- Conditioned Based Servicing
- DAB digital radio
- Digital Charging Service (12 months as standard)
- Dynamic brake lights
- DC Rapid Charge preparation
- Extended storage
- Exterior mirror caps in High-gloss Black
- Exterior mirrors, electrically folding with anti-dazzle
- Fast charging AC multi-phase capability
- Heat protection glazing with green-tint
- High-level third brake light integrated into rear spoiler
- Illuminated charging socket with visual display of charge status
- Interior trim, Andesit Silver metallic effect
- Interior world, Atelier
- Kidney grille, High-gloss Black with Chrome contrast edging
- LED headlights
- Li-Ion Battery with active cooling with 38kWh usable energy content
- Multi-function leather steering wheel, two-spoke – Black with unique BMW i Blue accent
- Navigation system – BMW Professional Multimedia
- Park distance control, rear
- Rain sensor with automatic wiper and headlight activation
- Rear spoiler, Black with integrated LED brake light
- Remote control, including integrated key
- Seat heating, front
- Slide through light-weight front seats, with contrast highlighting in BMW i Blue

Retail price from £34,445 inc. VAT

HM Treasury Plug-In Car Grant, up to a maximum of £3,500, will be applied to the on the road price. Subject to eligibility.

STANDARD EQUIPMENT HIGHLIGHTS.

The BMW i3s 120Ah (in replacement / addition to i3)

- 20" BMW i light alloy Double-spoke style 431 wheels, Bicolour with mixed tyres
- Additional 14hp of engine power, additional 20Nm of torque and 0.4 seconds reduction in 0-62mph time

Prices and specifications

BMW (UK) Limited reserves the right to alter prices and specifications without notice. BMW (UK) Limited has made every effort to ensure the accuracy of information but does not accept liability for any errors or omissions.

VED rates

Annual VED (second year onwards) for Band A is £310 for cars costing over £40,000 and is payable for five years. VED rates for brand cars are determined by their CO₂ emissions figure. First year VED applies to the first year of ownership. Annual VED rates apply thereafter. The BMW i3 and i3s 120Ah fall into the category below:

CO ₂ emissions (g/km)	Band A 0
First year VED	£0
Annual VED (second year onwards)	£0

On the road price

The on the road price includes:	
Delivery and BMW i Mobile Care	£825
Number plates	£25
Vehicle first registration fee	£55
First year Vehicle Excise Duty	See left

Key
* = Figures are for comparison purposes and may not reflect real life driving results which depend on a number of factors including the starting charge of the battery, accessories fitted (post registration), variations in weather, driving styles and vehicle load. They were obtained after the battery had been fully charged. The BMW i3 and i3s 120Ah are battery electric vehicles requiring mains electricity for charging. The electric range was determined according to a new test (WLTP). Only compare fuel consumption, CO₂ and electric range figures with other cars tested to the same technical procedure. ¹ = BIK tax rate and VED band dependent on chosen optional equipment. ^The price shown includes the HM Government Plug-In Car Grant of up to a maximum of £3,500 (applied the full price of the basic vehicle including number plates, vehicle excise duty, and VAT). The receipt of this grant is subject to the eligibility of the vehicle for the Plug-In Car Grant scheme at the point of the vehicle's first registration in the UK. The grant amount and vehicle eligibility may change from time to time following Government policy or regulation. Insurance group figures refer to 50 Group Rating System.

GENUINE BMW i ACCESSORIES.

A BMW i3 always delivers a special drive and Genuine BMW i Accessories make the experience better still. Combining great ideas, immaculate design and sheer practicality to create innovative solutions, Genuine BMW i Accessories are available in many categories: exterior, interior, communications & information and transport & luggage compartment solutions. Your BMW i Agent will be pleased to advise you on the complete range of Genuine BMW i Accessories. For further information, please visit www.bmw.co.uk/accessories

The design of the charging cable may vary from images shown.

INTERIOR WORLDS.

The interior worlds of the BMW i3 allow you to choose an interior design which best reflects your own tastes. Each of the striking interior worlds provide a different character to the interior of the vehicle, while retaining an exclusive BMW ambience.

ATELIER.

The standard Atelier interior world of the BMW i3 showcases a natural approach to design, while also creating a premium atmosphere. The use of materials, for example, the stylish standard upholstery in Aragats Grey/Black Neutronic cloth, underpins the futuristic ambience inside the vehicle. The dashboard is constructed using lightweight recycled materials on top of a magnesium structure which saves 20% in weight versus conventional materials. The Andesit Silver matt effect interior trim emphasises the high-quality of the interior. Highlights in BMW i Blue are used throughout, and are particularly noticeable on the unique piping of the standard Black multi-function leather steering wheel.

LOFT.

The Loft interior world is designed to emphasise the spacious interior and generous levels of light, made possible through the LifeDrive architecture of the BMW i3. A harmonious blend of sustainable and modern materials creates a light and dynamic interior, which imparts the impression of stylish equilibrium and balance. The lightweight fabric uses recycled and renewable materials combined with Sensatec PVC-free synthetic leather for a real focus on sustainable materials. The unique multi-function leather steering wheel in Carum Spice Grey with contrasting BMW i Blue accent further emphasises this elegant interior.

LODGE.

The updated Lodge interior world makes use of high-quality materials to create stylish, modern lines with functionality and quality at the core. The climate active wool and leather upholstery is perfectly complemented by the leather instrument panel and eucalyptus wood interior trim, creating a friendly and open atmosphere. The curved wood surface of the dashboard is also an exclusive detail, and emphasises the natural aesthetic of this interior. The Lodge interior world features a unique multi-function leather steering wheel in Carum Grey with a crisp Satin Silver accent, which continues the theme of style and modernity. Image shows optional interior trim Dark Oak wood, matt. Please note interior trim Eucalyptus wood, matt is standard.

SUITE.

The luxurious Suite interior world creates a sophisticated and exclusive atmosphere, whilst still reflecting the focus on sustainable and natural materials. It features sumptuous Vernasca leather upholstery in Dark Truffle, adding an elegant touch to the cabin. This is complimented by the interior trim in Dark Oak wood from certified sustainable forestry management. The high-quality multi-function leather steering wheel in Black has a contrasting Satin Silver accent.

LIFE DRIVE ARCHITECTURE.

The BMW i3 features an innovative and unique structure. The passenger compartment in high-strength and extremely light carbon fibre reinforced plastic (Life Module) is connected to the aluminium chassis (Drive Module) via a state-of-the-art bonding process. Revolutionary vehicle architecture dispenses with the need for B-pillars and a centre tunnel, thus allowing the BMW i3 to offer unprecedented, class-leading spaciousness. This open and light design creates an extremely pleasant atmosphere within the BMW i3.

The BMW i3 has a low centre of gravity which contributes to the driving dynamics of the vehicle. Aluminium chassis, electric motor, lithium-ion battery and Intelligent Energy Management are combined in the Drive Module, embedded deep in the vehicle. Thanks to this original way of using the latest materials, the BMW i3 is therefore not only extremely safe, but also agile and dynamic to drive.

CHARGING.

Soon after purchasing an electric car, you'll find that charging becomes more of an intuitive routine than a specific operation. Thanks to the portfolio of 360° ELECTRIC Products and Services, which provide easy and convenient charging, you can always rely on your BMW i3.

Using the cable provided, you can charge the high voltage battery via a conventional¹ socket. However, for regular fast charging BMW recommends the BMW i Wallbox for a convenient home solution. With the BMW i Wallbox Plus or BMW i Wallbox Connect, AC fast charging can take less than 5 hours (0-80%). For rapid charging, the standard DC rapid-charge function is the perfect solution for the BMW i3. Charging up at a suitable public charging point, for example, a DC rapid-charge facility takes approximately 42 minutes (0-80%).

	Standard charge	AC Fast charge	AC Rapid Charge	DC Rapid charge
Specification	AC Type 2 / Mode 2 Charging / up to 2.3kW / 10Amps	AC Type 2 / Mode 3 Charging / 7.4kW / 32Amps	AC Type 2 / Mode 3 Charging / 11kW / 3 x 16Amps	DC Combo 2 / Mode 4 Charging / 50kW
Approximate Charging time (h)	< 15 for 0-80% State of Charge	< 4.9 for 0-80% State of Charge	< 3.2 for 0-80% State of Charge	< 42 minutes for 0-80% State of Charge

The design of the charging cable may vary from images shown.
¹ It is advised that domestic electrical wiring is checked by a qualified electrician.

360° ELECTRIC – HOME CHARGING.

FOR FAST AND SAFE CHARGING AT HOME.

The progressive and ergonomically designed BMW i Wallbox is the ideal home charging solution and fulfills the important requirements of safety, comfort and design. With the standard charging cable, you can charge the BMW i3 from 0-80% at home via a conventional socket¹ in around fifteen hours (standard charging mode 2). When using the BMW i Wallbox Plus or BMW i Wallbox Connect at your property, the lithium-ion high voltage battery can be charged in less than five hours (0–80%). The ergonomic, high-quality design of the BMW i Wallbox provides maximum charging convenience with the ability to wrap the cable around the Wallbox, meaning no more bending down. The BMW i Wallbox Plus also features RFID chip card authentication for secured charging of up to three different vehicles. For even greater convenience, the BMW i Wallbox Connect is WiFi enabled for simple integration to your home network² and can be controlled via a smartphone app (iOS, Android), where session energy consumption can be viewed. Furthermore, 'Intelligent Charging' is possible in connection with additional Digital Charging Services now available from BMW. The maximum possible use of renewable energy (for example, through the integration of a solar power system³) is also optionally possible.

Collectively these are all aspects that have a positive impact on cost and ultimately ensures a sustainable charging experience.

BMW i WALLBOX.

A delivery, fitting and warranty package for the BMW i Wallbox Plus/Connect is also offered via our partner, Chargemaster Plc. Starting from £570* for the BMW i Wallbox Plus or from £825* for the BMW i Wallbox Connect (includes the BMW i Wallbox, Standard Installation, VAT and 3 year warranty). During the installation process, the service team will be able to advise on any questions you may have regarding how to charge and use your BMW i Wallbox, and where best to position it in relation to where you park your BMW i3. The installation service is managed by BMW and our partner, Chargemaster Plc, and is customised to your specific requirements.

For responsible charging, the BMW i3 comes with a seven day timer to aid charging at night, when renewable energy makes a higher proportion of the energy supply and when demand is at its lowest.

For more information please visit
www.bmw.co.uk/charging

¹ It is advised that domestic electrical wiring is checked by a qualified electrician.

² Compatibility and survey dependent, additional costs may apply.

³ Subject to OLEV subsidy and qualification which may be liable to change.

The design of the charging cable may vary from images shown.

360° ELECTRIC – PUBLIC CHARGING.

ChargeNow is a service from BMW i which, in partnership with Chargemaster Plc, enables customers in the UK to access the largest network of public charging points nationwide with a single card – the BMW i ChargeNow charging card. Charging points in the ChargeNow network are displayed using the BMW i ConnectedDrive Services in the specially developed navigation system, making it especially quick and easy to find and use public charging points in conjunction with the optional BMW i Public Charging cables, priced at £165 – £237.

Furthermore, their availability* is displayed in real time, indicating whether the points are available for use.

For a monthly fee of £7.85 and pay-as-you-charge access, payment is simple and cashless via the ChargeNow card. You will also receive a detailed itemised statement once a month and can access your account information online.

For more information please visit www.bmw.co.uk/charging

*Applies to ChargeNow Partner charging points only.

ChargeNow card

360° ELECTRIC – ASSISTANCE SERVICES.

BMW's portfolio of assistance services offers a broad range of solutions for all daily challenges that customers face. For BMW i drivers, the range of services for BMW vehicles has been complemented with specific eMobility services to make running an electric vehicle simple.

ConnectedDrive applications assist you with charging as well as using your BMW i vehicle. Your BMW i3 will, for example, notify you via your Smartphone application about the current charging status, inform you

about the battery State of Charge or remind you if the vehicle needs to be recharged to maintain the battery. And of course BMW i Mobile Care will support you 24 hours a day, 7 days a week in case there is an unforeseen event.

Your BMW i3 also comes with an eight-year / 100,000 mile high voltage battery warranty as standard, to accompany the three-year unlimited mileage vehicle warranty.

BMW i MOBILE CARE.

With the purchase of a BMW i3 and i3s, the comprehensive BMW i Mobile Care package is automatically provided. This ensures that professional help is available via telephone for any unforeseen events that could affect the vehicle or charging infrastructure and, if needed, provides rapid assistance at your location. In the event of an emergency, assistance is available 24 hours a day, wherever you are in

the UK, and help is on hand to either recover your vehicle to the most appropriate BMW i Agent or to find the most practical way to recharge it. In the unfortunate event of your vehicle being off the road, we provide a two-day car hire period so that you can remain mobile, minimising any inconvenience*.

SERVICE INCLUSIVE.

BMW i Service Inclusive: BMW i wants to keep servicing costs simple and transparent to you. That is exactly why our BMW i Service Inclusive packages have been tailored to the requirements of your BMW i3.

See page 28 for pricing information.

* Mobility will result in the loan of a vehicle and like for like replacements are not applicable as part of the BMW i Mobile Care terms.

The BMW Connected App. Your personal mobility assistant.

The BMW Connected App learns your mobility routines, reads your calendar and knows when you need to leave, providing you with a personal experience that is integrated into your everyday life. The App allows you to fully unleash the capabilities of BMW's innovative technologies intuitively through your smartphone.

● Learned destinations

BMW Connected learns your most frequently travelled routes and provides them as 'learned destinations' for future suggestions. If destinations are repeatedly visited, they are automatically listed at the usual time.

○ Amazon Echo

BMW Connected Skill now available for the Amazon Echo. Lock your BMW by simply asking, check the status of your car or when to leave for your next meeting without lifting a finger.

○ Apple CarPlay® preparation

Enables wireless and comfortable usage of your iPhone® in your vehicle via Apple CarPlay®. Selected smartphone content can be displayed and operated via the user interface of the vehicle.^{1,2,3,4}

● Estimated time of arrival

Never be late again with detailed updates of your regular routes and alternative options so you can manage your journey and avoid delays.

○ Door to door guidance

Get detailed walking directions from your parking spot to your destination. A map with a location pin also shows where you last parked once you're ready to head back to your car.

○ Time to leave

A notification on your Apple iPhone®, compatible Android phone, your Apple Watch® or Samsung Gear S3® watch will recommend a time to leave in order to arrive on time.

For more information, go to
www.bmw.co.uk/getconnected

Key

● = Standard ○ = Optional ¹ = Requires a free BMW ConnectedDrive account. ² = Compatibility and functions may vary due to the model year of the iPhone® and the version of software installed on it. Functions using a data connection will use data from the SIM card in the iPhone®. Additional data charges may be applied by the mobile network provider. ³ = Active for 3 years, renewable thereafter. ⁴ = Please note for purchases of Apple CarPlay® via the ConnectedDrive store after production, vehicles must be fitted with 6NWX.

BMW ConnectedDrive.
In touch with your world.

The BMW ConnectedDrive Services & Apps are on hand to make sure you have more time for the important things in life. Various innovations by BMW make things more convenient for you every day – whenever you want.

● **Real Time Traffic Information (RTTI)** collects current traffic information about motorways, main and country roads and the most important urban routes. It relays information about delays and dangers almost instantly and suggests the best alternative routes.^{1,2}

○ **Concierge Services** connects the driver to a BMW Call Centre agent who acts as their personal assistant at the touch of a button. The agent can locate a particular restaurant, for example, and send the address directly to the BMW's navigation system.^{1,2}

● **BMW Emergency Call** automatically establishes a voice connection with the local emergency services without the use of a mobile phone. It transmits information about the vehicle's current location and can be triggered manually in case other road users require help.⁴

● **Digital Charging Service** provides an intelligent way to charge. Simply enter your personal energy tariff, desired departure time and connect your car to an outlet or your BMW i Wallbox connect.^{5,6,7}

● **BMW Online Services** forms the basis for using the BMW ConnectedDrive functions. In addition, selected smartphone apps can be used in the vehicle and the BMW ConnectedDrive Store can be accessed.^{1,2}

Key
● = Standard ○ = Optional ¹ = Requires a free BMW ConnectedDrive account. ² = Active for 3 years, renewable thereafter. ³ = Active for 1 year, renewable thereafter.

Key
● = Standard ○ = Optional - = Not available Only with = these options must be ordered together. * = Included within package, see page 23 for package information.
* = Included within 5AT Driving Assistant Plus, see above for more information about this option.

Key
● = Standard ○ = Optional Only with = these options must be ordered together. * = Included within package, see page 23 for package information. ¹ = When specifying this option the roof panel at the rear is changed from CFRP (Carbon-fibre reinforced plastic) to Aluminium painted Black. The front remains the same with the glass panel sunroof. ² = Requires a free BMW ConnectedDrive account. ³ = Compatibility and functions may vary due to the model year of the iPhone® and the version of software installed on it. Functions using a data connection will use data from the SIM card in the iPhone®. Additional data charges may be applied by the mobile network provider. ⁴ = Active for 3 years, renewable thereafter. ⁵ = Please note for purchases of Apple CarPlay® via the ConnectedDrive store after production, vehicles must be fitted with 6NW. ⁶ = Active for the lifetime of the vehicle. ⁷ = Includes three year subscription to BMW Digital Charging Service. ⁸ = Includes subscription to a chosen music partner for one year. ⁹ = Data subscription costs apply and must be purchased separately. Content correct at time of going to print. Prices subject to change.

BMW PAY MONTHLY SERVICING & TRACKSTAR.

SERVICING MADE SIMPLE.

Planning for the road ahead has never been easier. With the BMW Pay Monthly Service Plan¹ you can remove the uncertainty often associated with car servicing costs by spreading them monthly, much like you would your household bills. Our Pay Monthly service plan covers two services and any unused credit can be transferred to another BMW if you decide to switch unexpectedly. As part of the Pay Monthly plan you will also receive a number of added extras including:

- Fluid top ups
- An MOT
- A Wash & Vac each time you visit
- Seasonal health checks
- Free Sat Nav Map updates

Get the quality service and parts you expect from BMW with a fixed monthly payment. Give your BMW the care and attention it deserves from the experts that made it.

Price: £15 per month for 36 months

Please contact your preferred BMW Centre for further information.

BMW TRACKSTAR.

Locate and recover your vehicle if it is stolen with BMW Trackstar or BMW Trackstar Advance. Benefits include:

- 24/7 Trackstar Monitoring Centre
- Thatcham accredited
- Integrated motion sensor
- Pan-European protection

BMW Trackstar price from: £399²

BMW Trackstar Advance price from: £649²

¹ Participating Retailers only. Two services must be claimed within four years or 40,000 miles, whichever occurs soonest. ² = Price excludes subscription. Please consult your preferred BMW Centre for further details. Content correct at time of going to print. Prices subject to change.

BMW i CONNECTED DRIVE SERVICES.

BMW ConnectedDrive keeps driver and vehicle connected with the outside world. Digital services, driver-focused technologies and driver assistance systems provide more comfort, more entertainment and more safety. Increase your driving pleasure – with BMW ConnectedDrive.

For further information on BMW ConnectedDrive and the General Terms and Conditions of Service for ConnectedDrive, please see: www.bmw.co.uk/connecteddrive-information

The BMW ConnectedDrive Hotline is available on: +44 (0) 800 561 0555 from Monday to Friday 8am – 7pm and Saturday to Sunday 9am – 5pm.

General information

BMW (UK) Ltd, Summit ONE, Summit Avenue, Farnborough, Hampshire, GU14 0FB (hereinafter referred to as “BMW”) provides the customer with certain vehicle-related information and assistance functions (hereinafter called “Services”) under the name of “BMW ConnectedDrive”. BMW (UK) Limited is the data controller. BMW collects, stores or processes car-related data in compliance with applicable law and only to the extent necessary to provide the Services. BMW does not collect, store or process personal data in course of the Services – except where this is explicitly stated in the following description of the individual Services. In the case of Services that require personal data to be collected, stored and processed so that such Services can actually be provided, BMW informs customers of this in advance by providing this data protection notice. The Services are provided by means of a SIM card installed in the vehicle.

BMW ConnectedDrive Services

The BMW ConnectedDrive Services “TeleServices” (6AE) and “BMW Emergency Call” (6AC) are activated at the point of vehicle production. All other BMW ConnectedDrive Services require your BMW vehicle to be registered against a BMW ConnectedDrive account before they can be used in the vehicle.

BMW ConnectedDrive Services duration

BMW Connected+	1 year
Online Entertainment (6FV)	1 year
Apple CarPlay® preparation (6CP)	3 years
BMW Online Services (6AK)	3 years
Concierge Services (6AN)	3 years
BMW Digital Charging Service (6AU)	3 years
Microsoft Office 365 (ZME)	3 years
Real Time Traffic Information (6AM)	3 years
Connected eDrive Services	5 years
BMW Emergency Call (6AC)	Active for the lifetime of the vehicle
BMW TeleServices (6AE)	Active for the lifetime of the vehicle

Availability of the Service

The complete range of Services is only available for customers whose vehicles are approved in United Kingdom, and only within United Kingdom. “BMW Emergency Call” (6AC) is available to customers in United Kingdom, Germany, Austria, Italy, San Marino, Vatican, France, Monaco, Switzerland, Liechtenstein, Belgium, Luxembourg, the Netherlands, Ireland, Spain, Andorra, Portugal, Sweden, Norway, Czech Republic, Poland, Turkey and Russia “TeleServices” (6AE), “Concierge services” (6AN), “Remote Services” (6AP) and “BMW Online” (6AK) can be accessed on any mobile communication network in Europe. When used abroad, the range and characteristics of the service may vary from the range and characteristics described above and may vary from country to country. “Real Time Traffic Information” (6AM) is available in United Kingdom, Germany, Austria, Italy, France, the Netherlands, Switzerland, Belgium, Republic of Ireland, Spain, Portugal, Sweden and Norway. “Online Entertainment” (6FV) is available for use in United Kingdom, Germany, France, Italy, Spain, Belgium, Luxembourg, the Netherlands, Austria and Switzerland.

Deactivation

The customer may have the BMW ConnectedDrive Services “TeleServices” (6AE) and “BMW Emergency Call” (6AC) deactivated at any time at an authorised BMW Centre, a regional BMW branch or an authorised BMW workshop. Deactivation of this Service will also deactivate the SIM card installed in the vehicle. **This results in the Emergency Call in the vehicle also not functioning.** The other Services can also be deactivated by the customer (from August 2014) via the BMW ConnectedDrive Customer Portal (“My BMW ConnectedDrive”).
